

CLR6

6" Commercial Recessed LED Downlight

Product Description

Designed for both new construction and retrofit applications, the CLR Series can be installed directly into drywall, a ceiling grid or an existing 6" CFL mounting frame with its spring loaded retention tabs and a J-box cable connection. Offering a full range of dimming from 0-10 volts, the base fixture is white but has available trims in nickel, oil-rubbed bronze and black making it adaptable to most any environment. The versatility of this light source is perfect for commercial applications, such as educational and governmental facilities, retail and grocery lighting, offices or hospitality.

Construction

- Cast-aluminum heat sink
- Matte white plastic trim
- Certified for direct contact with insulation

Optical System

- Polystyrene diffuse creates uniform light distribution that reduces glare without sacrificing lumen output

Electrical

- Universal input 120-277VAC
- Driver delivers full-range dimming from 0-10VDC
- Silent and flicker-free operation
- Tight LED binning ensures color uniformity
- Operating temperature of 0° to 120°F (-18°C to 49°C)
- Meets FCC Part 15, Subpart B, Class A standards for conducted and radiated emissions
- TM-21 Reported L70(10k) life >60,000 hours
- TM-21 Calculated L70(10k) life = 60,000 hours
- LM-79, LM-80 testing performed in accordance with IESNA standards

Finish

- Matte white, smooth plastic trim
- Color trims available in Aged Copper, Black and Brushed Nickel

Installation

- Easy installation into most 6" incandescent or fluorescent frames
- Housing or frame not needed for new construction installation.
- Metal rough-in templates available
- Suitable for wet locations
- Adjustable, spring loaded retention tabs ensure secure fixture retention on ceilings up to 1 1/2" thick
- For installations where power surge may be possible, NICOR recommends installing additional surge protection at the fixture or electrical distribution panel

Warranty

- 5-year limited system warranty standard
- Warranty does not cover product failure due to an overvoltage event (power surge)
