

## SIT-TO-STAND ELECTRIC PATIENT LIFT

### ITEM 10702

The Dynarex Sit-to-Stand Electric Patient Lift is designed to assist patients who need help transitioning to a standing position. This powered lift promotes mobility and helps support muscle engagement during rehabilitation and daily care routines.

- Soft, height-adjustable knee pad offers comfortable lower leg support
- Ergonomic design enhances maneuverability in tight spaces
- Compatible with multifunction slings for toileting and stand assistance
- Electric-powered for smooth, efficient lifting
- Ideal for rehabilitation and transitional care in clinical or home settings
- Weight capacity 400 lb.
- HCPC E0637
