- ♦ All glass tiles are made with recycled content made from postconsumer glass.
- ♦ Recycled content varies between 94-100%
- ♦ These collections are made with glass tiles employing the sintering process.
- ♦ The tiles are through body color.

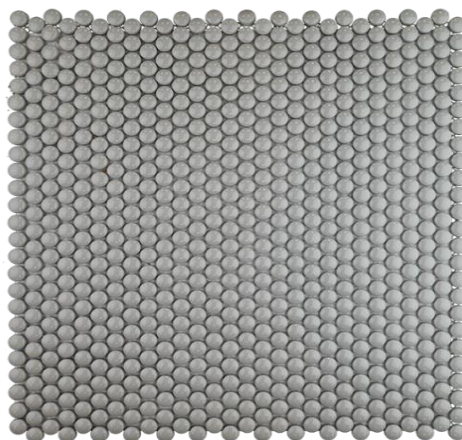

Care and Maintenance

Never use abrasive cleaners or chemicals. Hot water and mild dishwashing liquid is all that is needed for most of your cleaning needs. Avoid stiff-bristle or metal brushes if cleaning tile or grout. After washing, wipe with a soft, microfiber cloth for brilliant shine and no streaking.
