

REPLACEMENT CHAINS for Standard Slings

ITEM 10753

Dynarex Replacement Chains are designed to fit seat/back patient lift slings for use with hydraulic patient lifts, such as the Dynarex Hydraulic Patient Lift. Made from durable, rust-resistant steel, the chains are ideal for use as a replacement for original chains.

- Designed to fit seat/back patient lift slings for use with hydraulic lifts, such as the Dynarex Hydraulic Patient Lift
- Provides a convenient replacement option for old or worn chains
- Constructed from durable steel for reliable stability
- Rust-resistant and easy to disinfect between uses
- Easily attaches to slings with an S-hook for convenient setup
- 1 pair per box
