# BEYOND CALACATTA

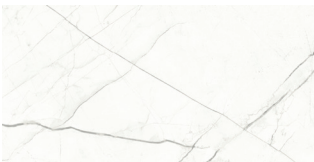

Atlas Concorde USA

## COLOR-BODY PORCELAIN

Beyond Calacatta embodies the most perfectly balanced marble with a surface adorned with angular, wispy veining, and a background with movement and depth. Our interpretation of this marble unfolds in five stunning colors, including the foundational black that inspired the collection, as well as an elegant warm gray, and three variations of whites. The collection demonstrates incredible dedication to capturing the intricate veins and background of Calacatta marble in an original, unprecedented, color palette.

Memory Oak features a complete spectrum of natural colors, with the soft, wavy appearance of veins and knots recreated in a smooth, pleasant-to-the-touch surface. Designers can achieve a variety of looks using the collection's three distinct field tiles, including the standard 8x40 plank, a sophisticated 8x40 chevron plank mirroring the precision and grace found in the most refined wood flooring, and a uniquely grooved 8x40 plank with a soothing, spa-like tranquility. Thanks to advances in manufacturing technology, the body of each wood-look tile has a subtle three-dimensional texture, which mimics the look and feel of real wood.

Portraits is a collection of surfaces that tells stories. Stories of people, places, world identities that come to life through spaces, environments, objects and are modernized in today's everyday life. The material becomes a trace, a continuous evocation of multiple and shimmering landscapes, memories and suggestions.

Combining multiple textures of stone in a variety of geometric shapes, the Shift collection changes our perception of stone as a decorative surface. Chiseled, scraped, and hammered, the stone surfaces shift from one texture to another in an almost lyrical fashion to create visual interest that changes with the play of light and shadow.

In Aqua, simplicity meets sophistication in a palette of colors that captures the essence of sand, the elegance of gray, and the vitality of green. These colors are not just hues; they are solidified emotions, crystallized thoughts, and moments of calm transformed into surfaces that caress both sight and touch.

The collection's delicate textures and subtle tones beckon us to touch and feel, to connect with the present moment. Each color is enhanced with a decor that evokes the silhouettes of leaves floating on water, reflecting different tones and intensities.

Captivating allure with intricate patterns and vibrant hues. The craftsmanship involved in creating Iris is truly remarkable, as each tile is meticulously handcrafted by skilled artisans.

The durability of Iris is another notable characteristic, owing to the high-quality clay and meticulous firing process they undergo. This ensures the tiles not only retain their beauty but also stand the test of time, making them a popular choice for both traditional and contemporary designs.
