

MOTOR CLEAN

Technical Data Sheet

Creation Date 27/08/2018

Version I

A powerful cleaner for any engine.

Where to use?

CRC Motor clean can be used on all engine parts and motor compartments.

How does it work?

The fast acting powerful formula removes tar, oil and grease from the outside of the engine. Just spray it on and rinse it off.

What to expect?

As a powerful degreaser it dissolves quickly all types of oil, grease and heavy dirt from parts in the motor compartment.

Be prepared

- Before use, carefully read and observe the warning texts on the label
- Always make sure to have a good ventilation.
- Avoid open fire or other sources of ignition in the same room.
- Dispose empty cans according to your local legislation.

Help for a good application

- Do not use on running engine.
- Let the motor cool down for 30 min. before use.
- Protect electrical and electronic parts and wiring against contact with product and water.
- Spray the parts to be cleaned with CRC Motor Clean.
- Allow acting for 10 minutes.
- Hose off using a strong water jet or a pressure cleaner when appropriate.
- Wire brush or scrape of heavy grease deposits.
- Rinse with clear water.
- Repeat procedure if necessary.
