SKYSCRAPER SPECIFICATIONS

SKYSCRAPER

STEPLADDER | TYPE IA 300 LBS | OSHA + ANSI COMPLIANT

**Little
Giant**
Ladder Systems

PRODUCT DESCRIPTION

Lifts and scaffolding can only go so far. When it comes to staircases, weight-sensitive terrain, and indoor projects with limited entryways, the SkyScraper gives you faster, easier access at less cost. Plus, it stores at just over half its fully extended height.

15FT 17FT 21FT

NO JOB IS OUT OF REACH

1. PALM BUTTONS

Sturdy, easy-to-use palm buttons make the setup and takedown of your ladder easy.

2. SAFETY STRAPS

Safety Straps help keep the ladder spread at the correct distance and helps promote proper use of the ladder.

3. UNMATCHED HEIGHT

The SkyScraper is designed to help you reach chandeliers, skylights and other difficult positions in rooms with high vaulted ceilings.

4. LOCK TABS

Make fast, easy adjustments to the length of your ladder with integrated lock tabs.

5. IDEAL FOR STAIRCASES

Articulating sides can be off-set for safe and convenient use on staircases. Reach the task at hand without issue.

6. REPLACEABLE FEET

With time, you may need to give your ladder a tune-up. The SkyScraper has replaceable feet for a quick, simple repair.
