YOUR HOME
WITH STYLE**

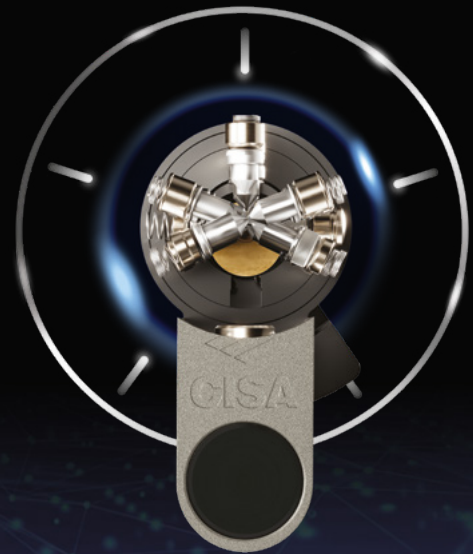

ALLEGION

Better connected,
more secure.

When it comes to protecting the people and places we love, security is never enough.

CISA RS5 integrates into one solution next-generation mechanical technology and digital functions for your complete and continuous protection and security.

RADIAL TECHNOLOGY

The new patented Radial System technology guarantees the utmost resistance to the most advanced housebreaking techniques.

PATENTED SYSTEM

DIGITAL DUPLICATION

MADE IN ITALY

DIGITAL PROTECTION

The new SECURICARD platform protects you against unauthorised key duplication.

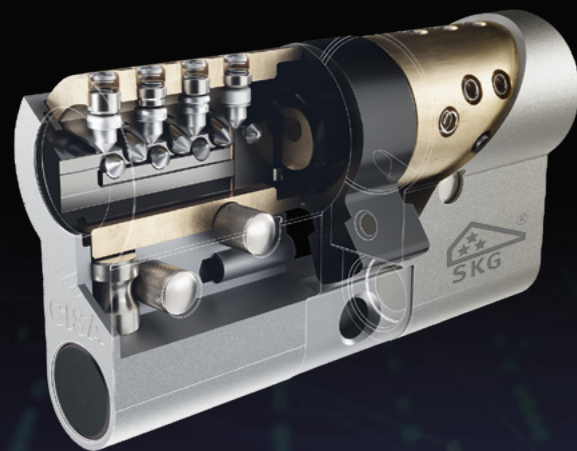

5-fold ways to make you feel secure

1 THE MOST RESISTANT CYLINDER EVER

The RS5 cylinder uses latest-generation radial technology together with patented systems to provide the highest SKG*** certified resistance against the most sophisticated attempts at forced entry, including decoder tools such as the Topolino.

+60% Resistance to pulling

Resistance to bumping

Resistance to picking

Resistance to drilling

Resistance to decoders such as the Topolino type

2 AN IRRESISTIBLE KEY

Designed in collaboration with the Faculty of Design of the University of Florence and protected against attempted cloning and unauthorised duplication, the RS5 is a true jewel, both inside and out.

3 PROTECTION THAT SPANS 30 YEARS

If you have an RS3 or RS3 S cylinder, CISA guarantees that the new RS5 can be easily retrofitted to models from 1993 onwards while providing the security of protected duplication.

UNIVERSITÀ DEGLI STUDI FIRENZE
DIDA
DIPARTIMENTO DI ARCHITETTURA

Mobile element that protects the key against cloning using a 3D printer.

4 KEY DUPLICATION ONLY BY CISA

No need to fear unauthorised duplications. Key duplication can be obtained only upon presentation of your personal SECURiCARD at any authorised CISA Centre, which will send your request directly to CISA.

5 DIGITAL PROTECTION CLOSE AT HAND

Activate your SECURiCARD account and enjoy its advantages at no extra cost:

- keep tabs on all operations carried out
- receive notification by email or SMS of all duplications
- activate two-step verification with OTP code
- generate digitalised duplication requests
