**ISLAND** STONE 

# Natural stone in a modern blend of rectangles and textures

Island Stone's newest natural stone ledger additions are a selection of groundbreaking patterns that make up the new **Evolution Collection**. All patterns are offered in precision-built ledger panels and precut corners that were designed for a seamless finished appearance while dramatically reducing the complexity of installation.

As its name suggests, the new **Evolution Collection** captures our exotic stone's intrinsic natural appeal in a modern blend of rectangles and textures. The resulting designs reflect a distinctive departure from classic ledgers, offering the ability to create original, modern installations. The Evolution Collection consists of two patterns, "Precipice" and "Interwoven", both patterns have unique dimensional personalities that accentuate the shadowing aspect. Each pattern creates depth and shadows, and the product can take on different appearances due to the light and shadowing effects. Lighting can enhance the look and create a beautiful focal point for any accent wall, fireplace, pool, or water feature.

Precipice Panel - Moonlit - Bush Hammered

Interwoven Panel - Alabaster - Bush Hammered

Interwoven Panel - Moonlit - Honed

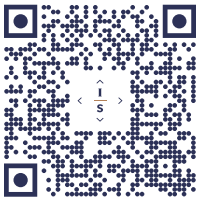

**Precipice** panels create a linear stone surface, accentuated by variations in surface depth. These ledger panels are created from slender strips of varying lengths and thickness adhered together in an offset, interlocking pattern. Complementing the panels, the precut 4 pc. corner sets complete any application with a finished, clean edge.

**Interwoven** panels leverage Island Stone's sought-after wedge-shaped stones that weave seamlessly across any surface accentuating the shadows created by the variation in depth between the highs and lows in the pattern. Precut 4 pc. corner sets are offered to eliminate the challenges of mitering and create a seamless corner.

## ORDER SAMPLES

If you are an Island Stone dealer, place an order for your merchandising package by calling 1-800-371-0001. If you are a homeowner or designer looking for a sample, please contact your local tile showroom or fill out the **contact us** form on our website.

### HONED

Alabaster

Moonlit

## FINISHES:

Bush Hammered  
Honed

## PRODUCT HIGHLIGHTS:

- Pre-assembled precision-built ledger panels and precut corner sets dramatically reduce the challenges of installation.
- Unique dimensional characteristics enhance the visual design by using light and shadows to create an eye-catching focal point.
- Suitable for both interior and exterior applications in residential or commercial environments.

ISLAND STONE

## ABOUT ISLAND STONE

We are your international, supplier-direct tile partner headquartered in California since 1997. We design, manufacture and supply over 3,000 tons of stone, glass and timber tile each year to showrooms across the globe. Our team is available to talk through product specification needs for interior design and architectural projects. Our in-house product experts can assist you with technical product questions to help ensure that your project turns out the way you envisioned.
