# IPORT DATA SHEET

CONNECT PRO Network Hub

CONNECT LEGACY POS PERIPHERALS TO IPAD AND CONNECT PRO

The IPORT CONNECT Network Hub adds to the robust capacity of CONNECT PRO and iPad by allowing legacy POS accessories such as scanners, thermal printers and some cash drawers to communicate directly to an iPad through a CONNECT PRO Case and Station. Your iPad can now have wired network access and run a custom application to use necessary accessories to keep your business running.

THE SYSTEM

The IPORT CONNECT Network Hub provides a hardwired network connection to an iPad along with power and communication to 4 USB-C and 4 USB-A ports for use with accessory devices.
