

# CUBE43 CUBE SERIES

4" FULL-RANGE, FREE-STANDING, BOOKSHELF LOUDSPEAKER

**(1) 4" (101mm) Aluminum Active Driver**  
**(1) 4" (101mm) Aluminum Passive Driver**  
**(1) 0.75" (19mm) Aluminum Dome Tweeter**

The CUBE43, the first in the Cube Series, is designed for versatile integration of small speakers for a wide variety of applications with as limited environmental impact as possible. With no ceiling or wall mounting required, these compact, free standing speakers pack a powerful punch in a tight package. With a dual active and passive woofer design, accompanied by a small coaxially mounted tweeter, these small footprint speakers cannot simply be described as full range.

Despite their small size, these wondrous speakers—crafted by our team of engineers—deliver impressive frequency response, wide dispersion, astounding output, and the same high quality sound that James Loudspeaker is dedicated to providing. In this sleek modern cubic design, these bookshelf speakers effortlessly combine elegant design with stellar audio performance, offering a no-compromise solution to both designers and audiophiles alike.

Your ears won't believe what your eyes are seeing. The high output and broad response of these speakers deliver more than you would expect for any environment you desire. Solidly sealed, aircraft grade aluminum enclosures, high excursion woofers and durable tweeters ensure years of enjoyment.

Size 4.5 h x 4.5 w x 4.5 d (in)  
114 h x 114 w x 114 d (mm)  
Freq Response 70Hz - 22kHz±3dB  
Impedance 8 ohms  
Sensitivity 86dB 2.83V /1m  
Power req. 50-100W
