TAGS

IDENTIFY MARK ORGANIZE

MATERIALS, SHAPES, SIZES

When it comes to long term identification, industrial metal tags stand the test of time.

Add a pre-marked valve tag to a pipe and instantly identify its contents.

Tag a tree or post with a numbered check tag to ensure that it is properly maintained.

Engrave your own tag to serialize a product or stamp it to create your own work of art.

No matter what you want to identify or create, C.H. Hanson® can help with a product to fit your needs. Contact us today for a solution.

C.H. Hanson I.D. tags are proudly made in our Naperville, IL factory using U.S. metals. Nothing is off-shored.

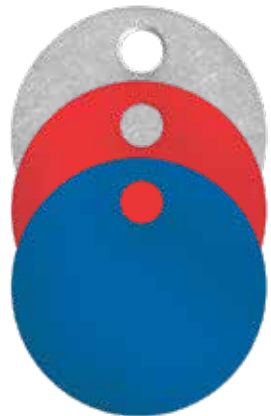

Brass Tags

Brass tags are popular in the plumbing and electrical industries. Brass is a non-ferrous metal that does not produce sparks; it is a preferred material in volatile environments like mining.

Stainless Steel Tags

Great for heavy-duty applications like aerospace, manufacturing, transportation, energy, construction and government applications.

Anodized colors include red, blue, yellow, gold, orange, green and black.

Aluminum and Anodized Aluminum Tags

Perfect for many applications including product nameplates. The softer material can be shaped around curved and round surfaces.

Used in aerospace, industrial, transportation and the energy industries.

A Shape and Size for Every Application

Choose from a wide variety of shapes and sizes up to 3".

Also, check out our website at chhanson.com to see many other tag accessories such as bead chains, cable tags, hand stamps and more.
