

5445MAX & 545MAX Series **Angle Grinders**

MAX Power

2.5 hp motor delivers an incredible power-to-weight ratio to maximize material removal, dramatically reducing job completion time on even the hardest alloys.

MAX Performance

Governed motor optimizes air consumption for the task at hand, delivering more power when you need it while increasing the life of abrasives and reducing consumable costs.

MAX Productivity

A tool-free adjustable guard allows for orientation changes in seconds and spindle lock enables quick abrasive changeovers with a single spanner wrench.

Take Your **Productivity** to the MAX

The **5445MAX & 545MAX Air Angle Grinders** from Ingersoll Rand® feature a 2.5 hp motor that delivers an incredible power-to-weight ratio to maximize material removal, dramatically reducing job completion time on even the hardest alloys. At just over 4lbs, its compact construction is comfortable for all day use without operator fatigue. Durable, high strength internal components are built for long run times, reducing maintenance costs and operator downtime.

A governed motor optimizes air consumption for the task at hand, delivering more power when you need it while increasing the life of abrasives and reducing consumable costs. The tool-free adjustable guard allows for orientation changes in seconds, while the spindle lock enables quick abrasive changeovers with a single wrench. For **COLOSSAL POWER in a compact size**, keep your operators running with the 545MAX Series Angle Grinders.

Technical Specifications

Model	5445MAX	545MAX
Wheel Size	4.5"	5"
Horsepower	2.5hp	2.5hp
Free Speed (rpm)	12,000	12,000
Governed	Yes	Yes
Vibration (m/s ²)	8.4	8.4
Sound Pressure	95	95
Exhaust	Rear	Rear
Length (in)	9.3	9.3
Weight (lbs)	4.1	4.1
