3. Pull out the source wires from the outlet box. Make wire connections using wire connectors (C) as follows:
   • Connect the hot wire (black insulation) from the fixture to the black wire from the power source.
   • Connect the neutral wire (white insulation) from the fixture to the white wire from the power source.
   • Attach the fixture ground wire (bare wire) to the mounting plate unit (A) with the green ground screw, then connect it to the house ground wire with the wire connector (C).
   Carefully put all of the wires back into the outlet box.

4. Attach the backplate of the fixture to the mounting plate unit (A) by aligning and inserting the two fixture mounting screws into set holes on backplate, then secure it with two bolt nuts (D).

5. Attach the glass shades onto the glass brackets and secure them with the spacers and socket rings, using supplied socket fixer (E).

6. Install 4 x 100W Max. medium base bulbs (not included). See relamping label at socket area or packaging for maximum wattage allowed.

**Turn on the power at fuse or circuit box.**

1 Year Warranty

Vaxcel warrants all of our products against defects in workmanship and finishes for one year following the date of shipment.

Exclusions: This warranty does not include the failure of products from extreme acts of nature; environmental conditions not suited for the products intended use; operation in temperatures outside of the range specified in the instruction manual; usage with improper power supply, power surges or dips. For coastal locations, some corrosion is considered normal for the environment.

Vaxcel reserves the right to repair, replace or issue a credit for any properly installed product, provided it is returned per RMA instruction. This warranty is limited to the cost of the product only and does not extend to transportation, installation or replacement costs.
