Care and use

Before installing the shower head, it is essential to read all instructions thoroughly. Begin by placing the washer onto one end of the shower hose, ensuring it is seated correctly before screwing it onto the shower head. Subsequently, connect the other end of the shower hose to the mixer tap. To avoid any leakage, please confirm that the washer is properly secured prior to installation. For maintenance, clean the shower head with a mild detergent or soap solution, and then wipe it dry to maintain its appearance and functionality.
