

# CRC® Food Grade Sugar Dissolver

## Product Description

An NSF H1 registered fluid that dissolves sugar-based soils. Cleans surfaces and leaves behind a thin lubricating film that helps prevent future build ups. For use in food processing and handling and beverage bottling facilities.

## Applications

Removal of sugar desposits and build on and lubrication of food processing and handling equipment, guides, conveyors, rails, bottling machinery, slicers, saws, linkages, etc.

| Identification            |                           |
|---------------------------|---------------------------|
| Item Number / Case Number | 1755839 / 1755840         |
| Legacy Number             | 03231                     |
| Unit Package Description  | 32 Ounce Bottle           |
| Net Fill                  | 32 fl oz                  |
| UPC Code                  | 078254001609              |
| Unit Dimensions           | 11.25H x 3.00W x 4.50D in |
| Units Per Case            | 12                        |

| Properties                   |                                                                |
|------------------------------|----------------------------------------------------------------|
| Appearance                   | Clear Colorless Liquid                                         |
| Base Type                    | Water                                                          |
| Boiling Point (F/C)          | 212°F / 100°C                                                  |
| Dielectric Strength          | Not Determined                                                 |
| DOT Proper Shipping Name     | Flammable liquids, n.o.s. (isopropyl alcohol) Limited Quantity |
| Evaporation Rate             | Slow                                                           |
| Flash Point (F/C)            | 80.6°F / 27°C                                                  |
