Classic, Best-Selling Designs

Created with diversion and convenience in mind, the Deskside Collection is comprised of three container series' that are available in a range of colors, sizes, and styles:

The Recycling & Waste Baskets, Hanging Waste Baskets & Deskside Recyclers. Outfit your office building with these clever and compact containers to help standardize your program, improve convenience and reduce recycling confusion. These lightweight bins feature rounded-edges to aid in cleaning and flat sides that create the perfect space for custom stamping or labels. In any combination, the Deskside Collection is the perfect solution to ensure your space is equipped for a seamless, standardized recycling program.

MATERIAL & CONSTRUCTION DETAILS

Not all recycling & waste receptacles are created equal. Our company policy is never to compromise on our workmanship or the quality material standards we've set. We only recommend and use quality first grade materials on our recycling & waste containers, and source these from OEM's at highly competitive prices. Being a manufacturer that buys at high-quantities gives significant buying power with companies which in turn saves you money.

The design process, materials used, finishes, and manufacturing standards all affect the final product. Every decision is vital to getting the most value for your investment. You deserve recycling & waste containers that meet your demands for quality and durability and will enhance your working environment for years to come.

Component	Material(s)	Construction
Hanging Waste Basket - Bodies and Lids (colors)	HDPE	<ul style="list-style-type: none"> Bodies and lids are molded from durable HDPE and contain up to 35% recycled content.
Hanging Waste Basket - Bodies and Lids (black)	PCR HDPE	<ul style="list-style-type: none"> Bodies and lids are molded from durable black 100% Post-Consumer Recycled HDPE.
Deskside Container	HDPE	<ul style="list-style-type: none"> Bodies are molded from durable HDPE and contain up to 35% recycled content
Recycling & Waste Baskets (colors)	HDPE	<ul style="list-style-type: none"> Bodies are molded from durable HDPE and contain up to 35% recycled content
Recycling & Waste Baskets (black and select colors)	PCR PP	<ul style="list-style-type: none"> Bodies and lids are molded from durable 100% Post-Consumer Recycled Polypropylene.

ENVIRONMENTAL CONSIDERATIONS

- All Deskside Collection Receptacles use a low energy, resource efficient manufacturing and curing process
- All Deskside Collection receptacle components disassemble at end of life and are fully recyclable
- Low maintenance and extremely long service life
- Manufactured in North America

Busch Systems® is dedicated to environmental responsibility. We maintain an Environmental Management System and are continually working to improve our impact through efficiency, material selection, vendor education, employee involvement, and an unwavering commitment to being a Certified B Corporation™. If you would like additional information on our product development process or if you don't see the information you need for your project on this page, please contact our Sustainability Team at sustainability@buschsystems.com.

LEAD TIME

Our standard stock lead times on the Deskside Collection are 3-5 days. Custom stamped or large orders are 6-8 weeks. Please contact us to discuss your specific timing requirements.

PRICING

Please contact us at **800.565.9931** or sales@buschsystems.com. At Busch Systems®, we design, manufacture and sell our products directly to you. Our sales team is available to assist you with questions about our products, requests for quotes, and orders. Vertical Managers are located across North America to assist with the front-end specification and quoting process, and our in-house Project Sales Coordinators follow your project through from the time you place an order to shipment.

TO ORDER PLEASE SPECIFY

Quantity, body model, and additional customization requests. Talk to your dedicated Busch Systems® sales representative for more information. If you do not have a dedicated Sales Representative please contact us via our website at buschsystems.com/contact-us/

INSTALLATION

Busch Systems® Deskside Collection containers are hassle-free when it comes to installation. Each container comes fully assembled and individually boxed using high-density cardboard with high-recycled content to ensure safe and environmentally friendly transport.

To install your Deskside Collection containers:

1. Unbox assembled container

CARE & MAINTENANCE

Advantages of Busch Systems® HDPE & LDPE receptacles include:

- Great low temperature impact resistance and excellent chemical resistance
- Great high temperature impact resistance
- Lower stiffness rating which reduces the potential for stress cracking
- High strength-to-density ratio

Their appearance and lifespan will be greatly affected by their care. The frequency of cleaning required depends on the environment in which the containers are used. Outdoor containers will be subject to different environmental conditions than indoor units, i.e. sun, rain, wind, pollution, winter temperatures, and salt/sea air.

To avoid the accumulation of dirt and grime on your Busch Systems® products, and help prevent corrosion, we recommend that a mild detergent be used (not an abrasive), such as a pH-neutral liquid (hand dishwashing or hand car washing soaps, for example) diluted in warm water. Wipe with a clean wet cloth and towel dry. Any dirt adhering to the powder coating should be removed. In order to remove deposits such as salt or dust, use a soft brush (non-abrasive). If this is not sufficient to remove stubborn soiling, the following products have been tested for use:

Note: Always test soaps/cleaners on a hidden and/or small area beforehand

- Ajax Cream
- Ajax Liquid (in water)
- Cutting compound ('T. Cut')
- Flash (in water)
- Liquid Gumption

If solvents are absolutely needed to remove marks, a soft cloth dampened with white spirit may be used.

GENERAL CARE

- Clean with a power washer or light scrub brush (outdoor/municipal bins)
- Clean with a mild detergent with a damp sponge or cloth (indoor/office bins)
- For soil and stain remover, cleaners like Fantastik, Armor All or Acetone may be tried
- UV safe cleaners MUST be used on all outdoor bins

THINGS TO AVOID

- Cleaners with chloride or bleach
- Solvents
- Abrasive detergents
- Steel wool or Scouring pads
