

WINEGROWER'S NOTE

This cloudy, organic, vegan wine challenges norms and breaks with convention.

It has an intriguing appearance, making you want to explore this new mystery and indulge in new pleasures.

It is even more astonishing on the palate: its texture and feel, combined with the intensity of its aromas, create a whole new tasting experience.

WINEMAKER'S NOTE

The grapes are harvested separately when perfectly ripe, based on grape tastings performed before the harvest.

Each grape variety is vinified separately.

Some of the Syrah undergoes cold maceration to preserve the integrity of its aromas, whilst the rest of the Syrah and the Grenache grapes go through traditional maceration (de-stemmed harvest).

Vinification is temperature controlled (maximum 25°C).

The wine is not filtered or clarified, remaining cloudy. It is matured in vats to preserve its fruity aromas.

TASTING NOTES

This red wine, a blend of Syrah and Grenache, offers red and black fruit aromas such as blackcurrant, blackberry and raspberry.

It has a beautiful structure on the palate, with a velvety feel borne up by fruity flavours.

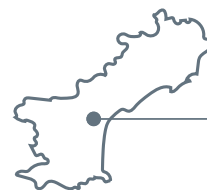

An original wine that will delight fans of light reds. Can be served chilled.

Serve with grilled lamb chops or asparagus risotto.

GRAPE VARIETIES

Grenache Noir, Syrah

Narbonne
