## CONNECT MultiDock 6

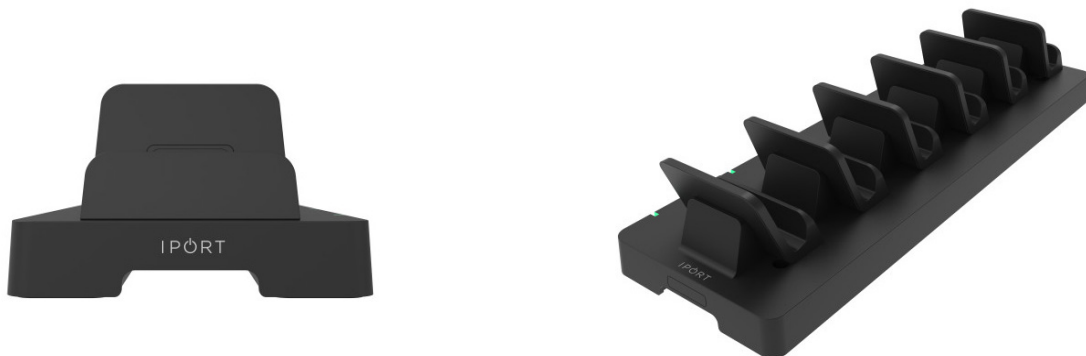

### CONNECT DOCK FOR SIX CONNECT IOS DEVICES AND PAYMENT PROCESSORS

With our all-new comprehensive selection of stationary and removable CONNECT solutions, we introduce next-level charging technology that can simultaneously charge multiple iOS devices and Payment Processors at the same time.

## MULTIDOCK

CONNECT Multidock 6 is a unique and powerful high density charging solution. Quickly and easily dock up to 6 Connect Cases for iOS devices using the integrated magnetic alignment system. Multidock simultaneously charges up to 6 devices, each with its own 5V 3A power source. Convenient LEDs indicate charging and readiness status. Multidock is designed to fit on shallow shelves and can also fit within a standard 19-inch rack on a rack shelf. The Multidock foot is designed to allow liquid spills to pass underneath the dock without interrupting function and the entire Multidock can be secured to a desk or table with the provided through holes and mounting screws. Individual Multidock modules ensure that Multidock will be ready for future device form-factors.
