

DUAL CYLINDER 12V AIR COMPRESSOR DIGITAL

DIGITAL PRESSURE GAUGE

Large, digital, easy to read, 0-150 PSI Max

SWIVEL HANDLE

High density polyethylene

AUTO SHUT-OFF

Automatically shuts off when the preset value is reached

30 IN. HOSE & BRASS CHUCK

Screw-on & TPMS tire sensor safe

BATTERY CLAMP ADAPTER

Provides the best performance

12V - 10 FT. POWER CORD

Easily reach all 4 tires on any standard passenger vehicle

LED LIGHT

Increases safety for emergencies at night

INFLATOR ON/OFF POWER SWITCH

Large, easy to use

RUBBER FEET

Stability and noise reduction

Item #	Inner	Master	UPC	Packaging
W7905	1	6	039564152146	Color Box

- Dual-cylinder design and heavy-duty motor produce 2.12 CFM (60L/min) and max. 150 PSI (10.3 Bar) and will fully inflate a standard 195/65/R15 car tire to 35 psi (2.4 bar) in about 2.5 minutes
- Digital pressure gauge switches between PSI, kpa, bar, and kg/cm2
- Auto-stop feature automatically turns off the compressor when the pre-set tire pressure is reached (+/- 0.5 PSI)
- Insulating ABS cylinder cover muffles sound
- 30 in. (76 cm) Rubber air hose is fitted with a brass screw-on chuck or to the 15 ft. (4.5 m) coil air hose for extended reach
- Using the 10 ft. (3 m) power cord and battery clamp adapter provides the best performance but the compressor can use a 12V accessory outlet if it is rated at 20 amp
- Built-in LED work light
- The rubber feet reduce noise to below 60 db and minimizes vibration
- Included: Compressor, 15 ft. (4.5 m) coil air hose, battery clamp adapter, 3 pc. nozzle set, replacement fuse, and storage bag
