

COLDWORK™ CANVAS UTILITY

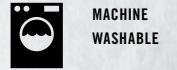

COLD WEATHER HAND PROTECTION

Constructed with C6 treated WR heavy-duty canvas, 100g Thinsulate™ insulation, soft Sherpa lining, and 3mm EVA foam knuckle protection, this versatile glove is the perfect solution for those looking for durable protection, maximum warmth and premium comfort. The Canvas Utility glove is designed for general maintenance, construction, home improvement or agricultural work in harsh winter conditions.

FEATURES

- 1 C6 water repellent heavy-duty treated canvas easily repels water and oils without sacrificing durability.
- 2 100g Thinsulate™ with soft Sherpa lining keeps hands warm and comfortable.
- 3 Boar palm is inherently water resistant.
- 4 3mm EVA foam provides optimal knuckle protection.
- 5 Gunn cut finger design repositions vulnerable seams for improved durability.
- 6 Heavy-weight tubular knit cuff keeps gloves in place.

INTENDED USES

- Maintenance & Repair
- Construction
- Agriculture
- Home Improvement
