SET UP YOUR WORKSTATION!

Instructions are located on the back of the box.

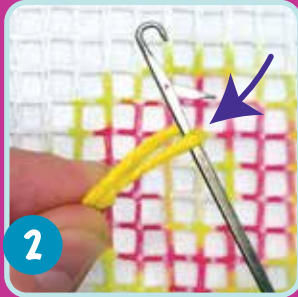

Note: You will also need a pair of scissors to complete this craft.

LET'S LATCH HOOK - DONUT!

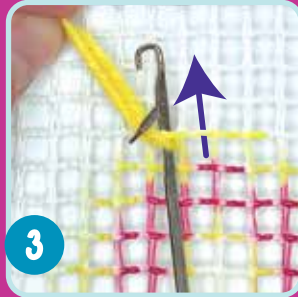

For visual reference, follow the color-coded design guides on back.

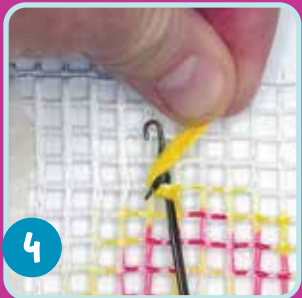

1 Start with the first color on the top left of the canvas.

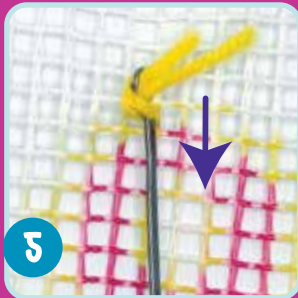

2 Fold a piece of yellow yarn in half forming a loop. Holding the 2 ends, place the loop evenly around the tool behind latch.

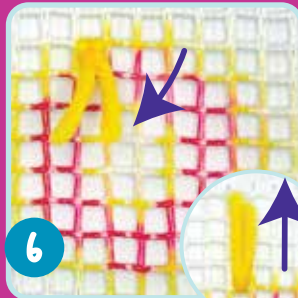

3 Holding the 2 ends, push the hook through the lower square and up through the square above it.

4 Cross the two ends over the tool so the yarn is in the eye of the hook.

5 Slowly pull the hook downward. As you pull, the latch will close. Then, let go of the yarn ends and continue pulling the hook through the lower square.

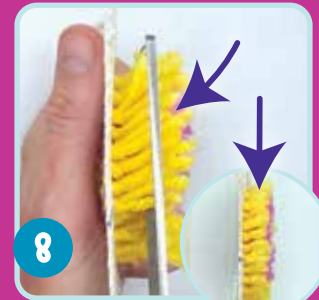

6 Lightly pull the yarn ends to tighten. Position them upward after tightening.

Continue steps 2-6 to complete the Donut. Be sure to complete each row of knots before starting the next row.

TIME TO TRIM

7 Hold your canvas vertically and look at it from the side. Comb the yarn strands outward with your fingers.

8 Place your scissors in the outer row of yarn and trim down to around half. Continue rotating the canvas in your hand until you have trimmed the entire design.

9 Trim off the excess canvas leaving a small border of fabric around the design to help secure it to the frame.

Note: Do not trim out the center of the Donut.

ASSEMBLE YOUR PATCH

10 Find the matching felt backer for the design. Remove the paper backing from 1 side. Center your canvas on the base and press down to secure.

Note: Trim off any excess canvas that is hanging off of the base.

11 Using your fingers, comb the outer pieces of yarn into the center of the Donut to show the small canvas border. Find the matching glitter felt frame and remove the paper backer. Line up a small section of the frame to the base and press down firmly, sandwiching the canvas inside.

Helpful Hint: Use your fingers to brush the yarn pieces out of the way as you apply the frame.

12 Using your fingers, comb the pieces of yarn away from the center of the Donut. Remove the paper backer from the glitter felt Donut hole and press down firmly into the center.

Decorate your patch with stickers! Use the box for reference. Then, remove the paper backer and stick it!

Helpful Hint: Use your latch hook tool to separate and style the yarn pieces.

CONTINUE THESE STEPS FOR THE REST OF THE LATCH HOOK DESIGNS!
