

## SQUIRT BOTTLES

Dynarex Squirt Bottles are crafted to help simplify pre- and post-tattoo skin cleansing with improved accuracy and reduced waste. Each bottle is designed with a squirt top to support more controlled aim. The internal hose reaches the bottom of the bottle to allow full dispensing of fluids. Featuring a transparent design with easy-to-read scale marks, these bottles allow users to quickly monitor fluid levels. Ideal for use in tattoo studios, medical settings, and professional environments.

- Designed to effectively apply cleanser to skin before and after tattooing
- Squirt top helps improve aim for more precise application
- Internal hose extends fully to bottom of the bottle for minimal waste
- Transparent bottle design with scale marks allows for easy monitoring of fluid levels

9560	250 mL	12 / cs
9561	500 mL	12 / cs
