

FOOT STOOLS

Dynarex Foot Stools offer secure footing in medical, professional, and home settings. Constructed from heavy-duty steel with a silver vein powder-coated finish, they provide long-lasting durability. The non-skid rubber platform enhances traction, while reinforced rubber feet help prevent slipping. Available with or without a handle, these stools are ideal for hospitals, clinics, and home use.

- Heavy-duty steel construction with a silver vein powder coat finish
- Non-skid rubber platform provides stability and grip
- Reinforced rubber feet help prevent slippage
- Available with or without a handle for added support
- Limited Lifetime Warranty
