

Spontex Handy Tough Scourer is ultra powerful and long lasting with a comfortable easy grip handle. It removes burnt on food and grease from baking trays, grills and BBQs. It's recommended by Pyrex for their glass dishes and jugs.

Our Handy Tough Scourer is made using 90% recycled rust free stainless steel and a recyclable plastic handle. As part of our commitment to switch to more sustainable packaging, we no longer use a plastic blister on this product. We have moved to a fully recyclable cardboard box that contains 70% recycled content and is made with materials from sustainable managed forests. This means we are using 830kg less plastic for every 100,000 packs.

DID YOU KNOW?

These scourers used either with hot soapy water or a cleaning paste are ideal for tackling the inside of the oven, especially the racks and glass.

USAGE GUIDELINES: Always rinse thoroughly before and after each use. Test on an inconspicuous area of the surface to be cleaned before use. Do not use on non-stick pans, plastic bathroom suites, enamel or any other delicate surfaces. Always use the handle. To avoid possible injury, ensure the scourer does not wrap around fingers or hands.
