

## Articulating Leg Rests

DME Care Solutions Articulating Leg Rests are high-quality leg supports featuring durable chrome steel construction for stable, reliable support and non-skid foot plates for improved security. The leg rests feature a convenient elevating function for effortless adjustments and articulated design for added flexibility. They are designed with padded calf pads for improved comfort and swing-away functionality for easy access to and from the wheelchair. These articulating leg rests require no tools to install, allowing for quick, efficient attachment.
