## Monorail Mini ELV Surface Transformer 12V

By Visual Comfort Architectural

### Description

The Monorail Mini ELV Surface Transformer is designed for use with the Visual Comfort Modern Monorail system. Its small housing offers a minimalist look, and it can be used with 2 inch standoff (without power extender) or 3 inch or greater standoff and a power extender. It is compatible with LED and halogen 12V pendants and heads, with a 250W capacity for standard halogen/LED lamps and 75W for integrated LED modules. It can power up to a 60 ft run of Monorail when fed from the center. Mounts to a standard 4 inch junction box with a round plaster ring (not included).

Shown in satin nickel
