Dual-flush retrofit handle for exposed, low consumption (1.6 gpf/6.0 Lpf) water closet flushometers.

► **Flush Cycle**

WES-212 Handle for Low Consumption Water Closets

► **Specifications**

Dual-flush retrofit handle for exposed, low consumption water closet flushometers with the following features:

- Reduces water volume by up to 30% when activated UPWARDS
- Retrofits to most any existing valve
- Lifting handle UP initiates reduced flush, eliminating liquid and paper waste
- Pushing handle DOWN initiates full flush, eliminating solid waste and paper
- Distinctive green handle signifies water conserving device
- Handle packing molded from PERMEX® rubber compound for chloramine resistance
- Includes (2) adhesive backed metal wall plates etched with instructions

* Antimicrobial coating does not protect users or others against disease-causing bacteria.

- Antimicrobial Coating on Handle Protects Handle Against Germs

► **NOTE:**

- Does not include Complete flushometer valve. For Complete valve, use Sloan's flushometer models WES-111 or WES-115.
- For low consumption (1.6 gpf/6.0 Lpf) water closets only. Not intended for water saver water closets (3.5 gpf/13.2 Lpf)
