## **Care and use**

To ensure the longevity and maintain the quality of your wooden board, it is essential to hand-wash only; it is not safe for dishwasher use. Immediately after use, rinse the board under warm water and allow it to dry in an upright position. If you encounter heavy odours, you can effectively remove them by sprinkling coarse salt over the surface and rubbing it with a sliced lemon, followed by rinsing the board under warm water and allowing it to dry upright once more. To preserve the wood, it is advisable to occasionally apply a small amount of food-grade oil to the surface using a soft cloth.
