

Deep Clean 3 In 1 Sponge And Scrub Mop

KL087751EU7

Please retain instructions for future reference.

Care and use

Ensure that the mop cover is tightly secured around the mop head prior to buffing. The cover features an elastic wrap for convenient detachment and reattachment. It is important to note that the wring function should only be used when the mop cover has been removed from the sponge mop. To effectively remove excess water, wring the sponge mop head several times, and remember to repeat this process after each use.

Made in **China**.
