WALK-IN TUB WITH RADIANCE®

Radiance® is a low voltage surface heating system designed to warm the interior surface of the tub. Radiance® on a unit with whirlpool jets requires relocation of the jets from the backrest to the drain side. See illustration on the previous page.

- Integrated heating grids for backrest area and seat of tub
- Simple push-button on/off switch

WALK-IN TUB AIR BATH FEATURES

- Twenty low-profile air jet distribution ports with independent check valves for enhanced sanitation
- Color-matched unobtrusive air jet caps for optimal comfort
- 3/4 bhp heated blower with automatic drying cycle
