

INVACARE® SLINGS

Yes, you can:

Invacare offers a complete line of slings designed to meet the dynamic needs in both the long-term care and homecare settings. **Invacare® Reliant™ Series Slings** are an industry standard and deliver the ease of use, comfort and security that is standard in all Invacare Products. The **Invacare® Premier Series Slings** offer additional fabric and style options to meet a wider array of needs, as well as value-adding features for the caregiver and patient alike.

Invacare® Reliant™ Slings come in an array of styles to meet a variety of client needs. Reliant slings feature a unique, fully padded fabric that forms a soft yet supportive surface. The soft, brushed lining helps prevent sliding for ultimate comfort and skin protection, and the stretch-resistant feature helps the slings hold their shape for superior support and ease of positioning. For clients and caregivers alike, Invacare Reliant slings are designed with comfort and safety in mind.

Features

Sling size and fit can vary significantly depending on patient weight and girth. These are general guidelines. Consult physician before sling selection.

All slings are constructed of polyester fabrics which can be used in wet or dry environments.

All Invacare® slings were designed specifically for use with Invacare® brand lifts for proper usage and optimal performance. To receive the maximum benefits from Invacare products, please see the size guide, product specs and operator manuals for solutions that best suit your needs.

1. **Invacare® Reliant™ Full-Body Slings**
2. **Invacare® Reliant™ Full-Body Slings with Commode Opening**
3. **Invacare® Reliant™ Divided Leg Slings**
4. **Invacare® Reliant™ Toileting Sling with Belt**

General Sling Sizes*

Color/Weight Chart

*Color/weight chart is intended as a guide

Full Body Sling With/Without Commode Opening (CO)

An easy sling to use while transferring the patient from the bed to a wheelchair, toilet or shower chair or from floor to bed. It offers total head and neck support and the padded lower section provides additional under-thigh comfort and support. Use the full body sling for patients who are totally dependent, partially-dependent, non-weight bearing, very heavy or have limited head control. Use this sling for amputee patients (in a reclined position).

Compatible with the following lifts:

- Invacare® Reliant™ 450, 600 Lifts
- Invacare® Jasmine™ Lift
- Invacare® 9805P Lift
- Invacare® Birdie™ Evo XPLUS Lift

Divided Leg Sling

The divided leg sling is a secure, easy-to fit general purpose sling, designed for the majority of sling users. Use the divided leg sling for patients who are totally dependent, partially dependent, non-weight bearing, very heavy or have limited head control. Use this sling when transferring the patient from the bed to a wheelchair, recliner or shower chair. The large opening also accommodates toileting.

Compatible with the following lifts:

- Invacare® Reliant™ 450, 600 Lifts
- Invacare® 9805P Lift
- Invacare® Jasmine™ Lift
- Invacare® Birdie™ Evo XPLUS Lift

SIZE	A	B	C	Weight Capacity	Model #/Material

M	37.5"	35.66"	17"	450 lb.	R100/Solid Composite Polyester Fabric
L	41"	40.66"	20.5"	450 lb.	R101/Solid Composite Polyester Fabric
XL	44.5"	43.16"	22.6"	450 lb.	R102/Solid Composite Polyester Fabric

Solid Fabric Toileting Sling

The Toileting Sling offers superb access for quick toileting and hygiene. It is easy to place and remove in a bed or chair situation. The fully padded design supports the back, offers under thigh comfort and allows for removal of clothing. Color coded positioning straps help align the sling properly on the hanger bar. **This sling requires the patient to have FULL head and neck control.**

Compatible with the following lifts:

- Invacare® Reliant™ 450, 600 Lifts
- Invacare® 9805P Lift
- Invacare® Jasmine™ Lift
- Invacare® Birdie™ Evo XPLUS Lift

SIZE	A	B	C	Waist Belt Min	Waist Belt Max	Weight Capacity	Model #/Material
L	36"	44.7"	20.5"	34"	66"	450 lb.	R121/Solid Composite Polyester Fabric

Standing Sling (use with Stand-Up Lift)

Standing slings are for patients who are partially dependent, have at least 60% weight bearing capacity, have head and neck control, are cooperative, can sit up on the edge of the bed (with or without assistance) and are able to bend at the hip, knees and ankles. Use the R130 or R131 standing slings for standing assistance, quick toileting, weight bearing practice and for transferring patient from bed to chair, or chair to bed.

Compatible with the following lifts:

- Invacare® Reliant™ 350 Lift
- Invacare® Get-U-Up™ Lift
- Invacare® Rose™ Lift
- Invacare® ISA™ Compact, XPLUS Lifts

SIZE	A	B	Waist Belt Min	Waist Belt Max	Weight Capacity	Model #/Material
One Size	60"	16"	27"	60"	440 lb.	R130/Solid Composite Polyester Fabric
XL	84"	16"	39"	84"	440 lb.	R131/Solid Composite Polyester Fabric

Transfer Sling (use with Stand-Up Lift)

Transport slings are for transferring patients with minimal weight-bearing capacity, who have head and neck control, are cooperative, can sit up on the edge of the bed (with or without assistance) and are able to bend at the hips, knees and ankles. Use the R134 and R136 transport slings for transferring patient from bed to chair, chair to car or general in-room transport. **Do not raise patient to a full standing position while using the transport sling.**

Compatible with the following lifts:

- Invacare® Reliant™ 350 Lift
- Invacare® Get-U-Up™ Lift
- Invacare® Roze™ Lift
- Invacare® ISA™ Compact, XPLUS Lifts

SIZE	A	B	C	Weight Capacity	Model #/Material
One Size	34"	13.5"	9"	440 lb.	R134/Solid Composite Polyester Fabric
XL	46"	13.5"	10"	440 lb.	R136/Solid Composite Polyester Fabric

Invacare® Premier Series Slings offer balanced solutions for transfers because they were developed in collaboration with Occupational and Physical therapists. Invacare Premier slings are available in a wide variety of styles and can be adjusted to ensure a comfortable and secure fit for the patient. Clearly labeled slings and easy attachment points make it simple for the caregiver to quickly attach the sling and lift the patient.

Comfort Sling and Comfort Sling with Commode Opening

Amputees and residents with chronic or postural pain have delicate needs that may require a constant seated position. Comfort Slings transfer them from a horizontal to seated position, with an additional model if toileting is also required.

Compatible with the following lifts:

- Invacare® Reliant™ 450, 600 Lifts
- Invacare® Jasmine™ Lift
- Invacare® 9805P Lift
- Invacare® Birdie™ Evo XPLUS Lift

Stand Assist Sling

Designed for use with the Invacare stand up lifts, the Stand Assist Sling offers a comfortable and safe transfer for those who have some weight bearing ability, but cannot stand independently. The sling is well-padded and features non-slip material on the side that touches the patient to assure a comfortable transfer position.

Compatible with the following lifts:

- Invacare® Roze™ Lift
- Invacare® Reliant™ 350 Lift
- Invacare® Get-U-Up™ Lift
- Invacare® ISA™ Compact, XPLUS Lifts

SIZE	A	B	C	Waist Belt Min	Waist Belt Max	Weight Capacity	Model #/Material
