

4-Group RF Remote Control

The Lutron® Shading Solutions 4-Group RF Remote Control is a flexible and easy-to-use device that allows the user to control Lutron® shades from anywhere in the space. This battery-operated control requires no external power or communication wiring.

Features

- Provides control of Lutron shades in the following systems:
 - Standalone:
 - Serena® Honeycomb and Roller Shades
 - Sivoia® QS Triathlon Honeycomb and Roller Shades
 - Sivoia® QS wireless window treatments
 - Lutron® Smart Bridge systems (CS-YJ-4GC-WH only)
 - RadioRA® 2 systems
 - HomeWorks® QS systems
- Battery-powered. Requires no wiring
- Backlit buttons clearly indicate which shade group is selected
- 7 year battery life (two AAA alkaline batteries included)
- Provides control of window treatments and systems within a 30 ft (9 m) range

Specifications

Regulatory Approvals

- Lutron® Quality Systems registered to ISO 9001:2008.
- FCC Certified (U.S.A.; CS-YJ-4GC-WH)
- IC Certified (Canada; CS-YJ-4GC-WH)
- CFT Certified (Mexico; CS-YJ-4GC-WH)
- IEC Compliant (CS-YK-4GC-WH)
- TRA (CS-YK-4GC-WH)
- CITC (CS-YK-4GC-WH)

Power

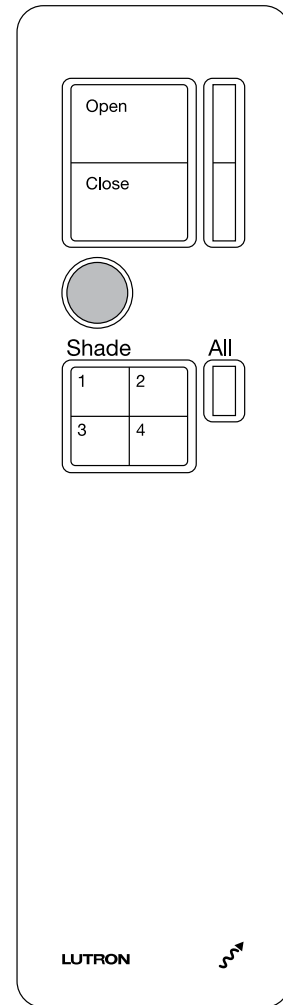

- Operating Voltage 3 V⁻⁻⁻⁻
- (2) AAA alkaline batteries (included).

Model Numbers:

- CS-YJ-4GC-WH
 - Frequency Code J = 431.0 - 437.0 MHz
- CS-YK-4GC-WH
 - Frequency Code K = 868.0 - 869.8 MHz

Environment

- Ambient operating temperature:
32 °F to 104 °F (0 °C to 40 °C)
- Maximum 90% non-condensing relative humidity
- Indoor use only

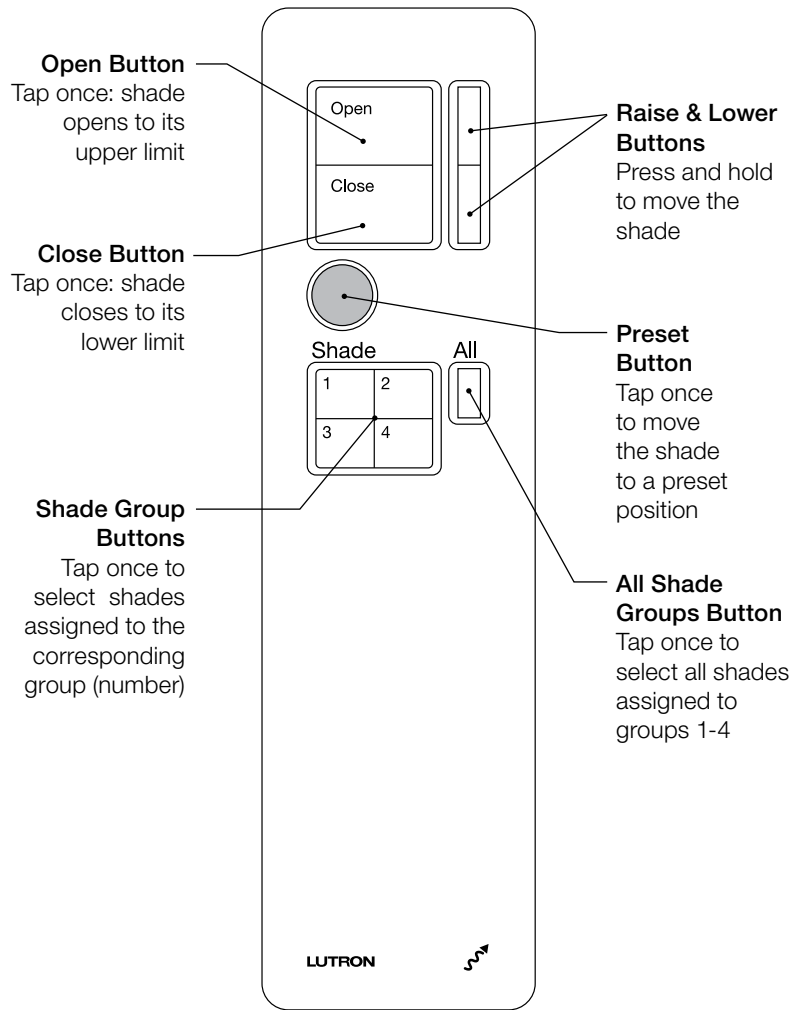

4-Group RF Remote Control

Warranty

- 1 Year Limited Warranty
