XPC-STYLE TRIM ADAPTER FOR PPX POWERPIPE  
GUIDE AND CUT-OUT TEMPLATE

**6" ROUND CUT-OUT TEMPLATE**

1. Survey the surface to be cut to avoid wiring, pipes, and other obstructions that might interfere with the grille adapter and PPX pipe.
2. Use this template to trace an outline in the desired grille adapter location, taking care for position and level.
3. Cut into the surface along the traced outline using a keyhole or drywall saw.
4. Proceed with grille adapter installation steps from the PPX PowerPipe Manual.

**NOTE: See manual for detailed instructions at: [www.sonance.com](http://www.sonance.com).**

**INSTALLATION GUIDE**

1. Pull port pipe through the opening and connect to the XPC-style trim adapter.
2. Insert port pipe and connected adapter into the hole.
4. Tighten the Roto-Lock® screws using low-torque setting on your screw gun. NEVER OVER TIGHTEN.
5. Attach grille (sold separately).

**Note: See the manual for grille painting instructions at: [www.sonance.com](http://www.sonance.com).**
