# KONA

Kona is truly a beautiful representation of the profound connection between humanity and the Earth. The cladding used in this design not only celebrates the raw material's natural beauty but also highlights its transformative potential. With a wide array of colors and accessories to choose from, designers are invited to unleash their creativity and redefine spaces with authenticity and imagination.

## SIZES | DESCRIPTION

3" x 14" x 8mm Herringbone Mosaic

1" x 6" x 8mm Herringbone Mosaic

1" x 4" x 8mm Brick Mosaic

1/2" x 14" x 14.7mm Liner

1/2" x 3" x 8mm Basketweave Mosaic

1/2" x 3" x 8mm Mosaic

## FINISH

Matte/Natural

WALL | GLAZED CERAMIC

# FEATURES & BENEFITS

- The collection color palette, inspired by reconnection and identity, breathes life into earthy and nature-inspired hues.
- Through its matte surface and consistent color spectrum, Kona unites joints and mortar in a symphony of visual coherence.
- Durable: Kona wall tile is made from high-quality materials and is designed to last for many years.
- Easy to care for: Kona is easy to care for and can be cleaned with a damp cloth.

Frost Resistance	N/A
Mohs Hardness - EN101	N/A
Water Absorption	≤ 3%
Certifications	N/A
Country of Origin	N/A
Shade Variation Code	V1

## CARE & MAINTENANCE

Glazed tile products should be cleaned routinely with an all-purpose, low VOC, household or commercial cleaner. The product chosen should also be grout joint cleaning compatible. The type of product may vary depending on the tile application and use. A multipurpose spray cleaner, which removes soap scum, hard water deposits and mildew designed for everyday use can be used on wall tile areas in residential baths and showers. A cotton mop, cloth, sponge, or non-metallic brush should be used to apply and agitate cleaner. Rinse the area with clean water and dry thoroughly. Routine cleaners should never contain harsh chemicals as these can damage tile. Acids can damage grout and the glazed surface of the tile. Ammonia can discolor grout.

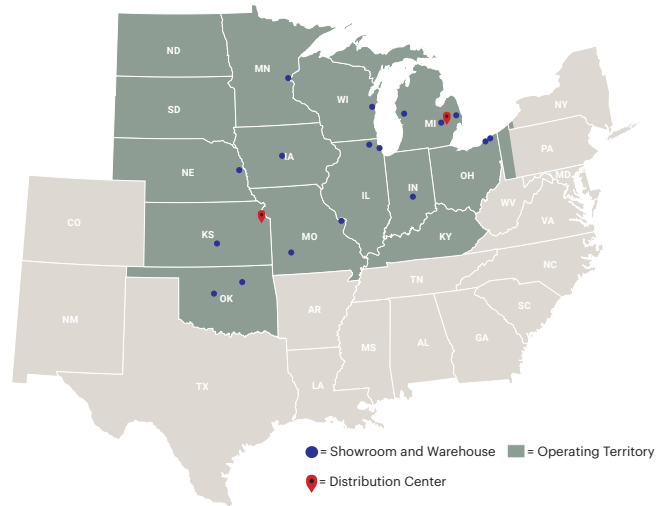

Regular dust mopping, sweeping, or vacuuming is recommended prior to cleaning with liquid products.

Unglazed tile should be cleaned routinely with concentrated tile cleaners with a neutral pH for safe regular use. These cleaners are better suited for removing grease, oils, and normal spills from unglazed products. Again, these products will vary depending on the application, amount of traffic and the use. The product chosen should also be compatible with the grout.

# A MIDWEST STAPLE.

Our 19 locations represent an expansive footprint, with an in-house transportation network directly servicing professionals in 16 states across the Midwest.

While our commercial programs and manufacturer partnerships extend to projects across North America.
