

# INSTALLATION INSTRUCTIONS

## SONANCE ACOUSTIC ENCLOSURES

### Introduction

Thank you for purchasing Sonance speaker accessories. When properly installed, this product will provide you with years of entertainment pleasure. To obtain the full potential of your new speakers and accessories, please read all instructions before starting the installation. If you do not have the necessary skills to install speakers yourself, contact your Authorized Sonance Dealer for installation options.

### Part List

Each Sonance Acoustic Enclosure Package contains:

- (1) MDF Acoustic Enclosure

### Installation Instructions

1. Determine the proper location for the speaker opening.
2. Install the box as far forward (speaker side) in the bay as possible to minimize contact with rear side drywall.
3. Attach the box to the stud or joist bay using wood screws. (Not included)
4. Drill a quarter inch hole in the top or bottom panel (whichever is most convenient) of the box for the speaker wire.
5. Route the speaker wire into the enclosure through the hole you just drilled and tie a knot to secure it inside.
6. Seal the hole with silicon sealant to make the box air tight.

### Installing The Speakers

1. After the drywall is hung, install the speaker into the back box opening and secure.
2. Attach grille.

Rectangle back box shown as example
