

Shades 2.0

Porcelain Stone®

Shades 2.0

Porcelain Stone®

The evolution of design begins with Shades 2.0.

Continuing the tradition of the original Shades by Crossville, contemporary, elemental hues add warmth and depth to this perennial porcelain tile favorite. The subtle biophilic linear graphic is available in unpolished and semi-polished highlighting the soft striations of the finish. This directional visual was created to run in the same direction, or alternate to provide even greater visual texture. Still not enough? Shades 2.0 also offers a multi directional graphic in its new patterned accent tile designed to subtly stand out in a mix or work alone for maximum impact.

An expansive array of size offerings provide even more choices in shape and scale. With the addition of a 24"x48" tile, Shades 2.0 is suitable for even the largest of spaces. If you need something smaller in stature, a 2"x2" unpolished solid mosaic or 1"x3" semi-polished mosaic in cool or warm blends will fit your project's needs. Additional sizes include field tile in 6x24, 12x24, and 24x24, as well a new 12"x12" right triangle – all rectified - for an even bolder aesthetic. Complete your installation with a 4"x24" bullnose or 6"x12" cove base, both designed for beauty and functionality.

Shades 2.0 by Crossville is made in the U.S.A using Crossville's Ecocycle Tile Process™. It is Green Square Certified and Petal Certified by the International Living Future Institute, making it a beautiful responsible selection for your next design project.

Shade & Texture Index

Shades by Crossville™ has a shade variation of V2.

Get Planked!

Our Porcelain Stone® products are available in popular plank shapes with no minimum order and quick fulfillment.

See website for more details and sizes.

Recommended Use

Shades 2.0 is recommended for interior floors, walls, countertops, and exterior walls in both residential and commercial applications. Shades 2.0 is not recommended for exterior horizontal surfaces or exterior paving. **The semi-polished) SPO) field tile is not recommended for wet areas where standing water may occur.** If offset pattern is required for tiles 15 inches or longer, Crossville® recommended an offset of not greater than 33%. See CrossvilleInc.com for detailed installation instructions.

Wet area use for Shades 2.0 1 x 3 SPO and 2 x 2 UPS Mosaics

Crossville® produces the Shades 2.0 1 x 3 mosaics with a semi-polished (SPO) finish and the 2 x 2 mosaics in the UPS finish. The AcuTestsm wet Dynamic COF of Shades 2.0 is ≥ 42 . Their small 1 x 3 and 2 x 2 size ensures frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning. This information is provided so that customers may make a realistic and informed decision when comparing Shades 2.0 to other tile products in wet area environments, such as residential/commercial bathrooms, showers, and interior pool decks.

Care and Maintenance

Regular cleaning is the best way to keep Shades 2.0 tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville® products is available at CrossvilleInc.com.

Our Warranty

Crossville Inc. guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1- 2012 and in the performance data section of the Crossville, Inc. general product catalog. For complete details check our website at CrossvilleInc.com.

HydroTect™

Our porcelain tiles are available with Hydrotect™. Crossville's revolutionary invisible coating harnesses the power of light, water, and oxygen to create the best defense against dirt and pollution. Whether indoors or out, floors and walls stay cleaner, providing a superior experience in any space. For complete details check our website at CrossvilleInc.com.
