

M

At Spontex, we think your hands are precious and deserve the best, that's why we offer a complete range of gloves designed for specific tasks, to protect them each and every day.

Spontex Everyday gloves have a special antibacterial treatment inside them that eliminates 99.9% of bacteria so they stay fresher for longer. These strong, supple and comfortable gloves with their non slip grip are perfect for everyday household cleaning tasks such as washing up.

Our Everyday gloves are made from natural, renewable, FSC® certified latex from responsibly managed hevea plantations. The soft lining is made from 100% recycled cotton. As part of our commitment to switch to more sustainable packaging, we no longer use any plastic packaging on this product. We've moved to a fully recyclable cardboard box which means we are using 280kg less plastic for every 100,000 packs.

TOP TIP: To keep your gloves in good condition, give them a rinse after each use and leave them to air dry, ready for next time.

DID YOU KNOW?

Spontex Handy Everyday disposable gloves are also available.

These easy fitting and 100% food safe gloves provide protection from stains and odours, making them ideal for food preparation and many other one off tasks.
