

THE BATTERY

1. The battery is the power source for the vehicle.

2. It provides the electrical energy to start the engine.

3. It provides the electrical energy to the vehicle's electrical system.

4. It provides the electrical energy to the vehicle's accessories.

5. It provides the electrical energy to the vehicle's lights.

6. It provides the electrical energy to the vehicle's horn.

7. It provides the electrical energy to the vehicle's radio.

8. It provides the electrical energy to the vehicle's stereo.

9. It provides the electrical energy to the vehicle's power windows.

10. It provides the electrical energy to the vehicle's power locks.

11. It provides the electrical energy to the vehicle's power mirrors.

12. It provides the electrical energy to the vehicle's power seats.

13. It provides the electrical energy to the vehicle's power windows.

14. It provides the electrical energy to the vehicle's power locks.

15. It provides the electrical energy to the vehicle's power mirrors.

16. It provides the electrical energy to the vehicle's power seats.

17. It provides the electrical energy to the vehicle's power windows.

18. It provides the electrical energy to the vehicle's power locks.

19. It provides the electrical energy to the vehicle's power mirrors.

20. It provides the electrical energy to the vehicle's power seats.

21. It provides the electrical energy to the vehicle's power windows.

22. It provides the electrical energy to the vehicle's power locks.

23. It provides the electrical energy to the vehicle's power mirrors.

24. It provides the electrical energy to the vehicle's power seats.

25. It provides the electrical energy to the vehicle's power windows.

26. It provides the electrical energy to the vehicle's power locks.

27. It provides the electrical energy to the vehicle's power mirrors.

28. It provides the electrical energy to the vehicle's power seats.

29. It provides the electrical energy to the vehicle's power windows.

30. It provides the electrical energy to the vehicle's power locks.

31. It provides the electrical energy to the vehicle's power mirrors.

32. It provides the electrical energy to the vehicle's power seats.

DISASSEMBLY

Part No.	Part Name	QTY	Part No.	Part Name	QTY
1	BATTERY	1	4	TERMINAL POST	2
2	TERMINAL POST	2	5	MOUNTING BRACKET	2
3	MOUNTING BRACKET	2			

1. Remove the battery from the vehicle.

2. Disconnect the negative terminal post.

3. Disconnect the positive terminal post.

4. Remove the mounting brackets.

5. Remove the terminal posts.
