Warning! To prevent tipping and avoid potential injury, stakes must be driven 10-1/2" (267mm) into ground. Digging or driving stakes can be dangerous if you do not check first for under-ground wiring, cables or gas lines.

Attention ! Afin d'éviter le basculement et les blessures potentielles, les piquets doivent être enfoncés 10-1/2" (26.7 cm) dans le sol. Creuser ou enfoncer des piquets peut être dangereux si vous ne vérifiez pas d'abord le câblage souterrain, les lignes ou les conduites de gaz.

¡Advertencia! A fin de evitar vuelcos y posibles lesiones, las estacas deben clavarse a una profundidad de 10-1/2" (267 mm). Clavar las estacas o introducirlas en el suelo puede ser peligroso si no se comprueba antes la ausencia de conductores, cables o tuberías de gas subterráneos.

Warnung! Um mögliche Verletzungen durch ein Umstürzen des Spielhauses zu verhindern, müssen die Bodenanker 267 mm tief in den Boden getrieben werden. Bevor Sie mit dem Graben der Löcher für die Bodenanker oder dem Einschlagen der Bodenanker beginnen, prüfen Sie zunächst, ob unterirdische Stromleitungen, Kabel oder Gasleitungen unter dem Spielhaus durchführen.

Avvertenza. Per prevenire potenziali incidenti, inserire i paletti per 267 mm nel terreno. Scavare o posizionare i paletti può essere un'attività pericolosa se non si controlla l'eventuale presenza di cablaggi elettrici, cavi o linee del gas nel terreno.
