

NASAL OXYGEN CANNULAS Standard Tip

Dynarex Resp-O₂™ Nasal Oxygen Cannulas with Standard Tips are designed to efficiently deliver supplemental oxygen to respiratory patients. These translucent cannulas are available with either Standard or Universal connectors and feature light green oxygen supply tubing, designed to help improve tube visibility.

- Non-flared nasal prongs
- Crush-resistant, star lumen oxygen supply tubing
- Individually wrapped
- Not made with natural rubber latex or DEHP
