Uni-Shot

Single use ceramic molds, exothermically connects wire to ground rod.

Electronic

Traditional

The Uni-Shot is an easy to use solution for customers who need to make only a few wire to ground rod connections.

Designed with the user in mind

Uni-Shots are available with UltraShot cartridges for electronic users. Note: USCONTROLLER is required for ignition. Also available with NUWTube cartridges, utilizing the traditional “pour and shoot method”, firing with a flint ignitor (FLTIG). USCONTROLLER and FLTIG, sold separately.

Easy to use

Single use, disposable! Frames or mold handles are not required for either Uni-Shot version.

NUWTube

Type	Mold Part No.	Ground Rod Size	Cable Size
