

Trim Kit Overview

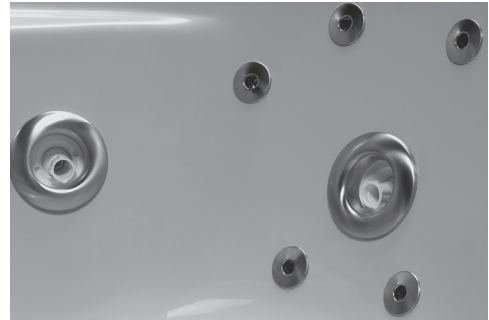

Whirlpool Trim / Standard Therapy

When whirlpool packages are ordered, the trim typically matches the tub color. The trim in whirlpool packages includes:

- On / off control
- Air-volume control
- Suction cover
- Jet escutcheons
- Fill-Flush® filler cap (if so equipped)

Whirlpool Trim / Ultra Therapy

Ultra Therapy whirlpool packages may include additional hardware. See package content on tub specification sheet for details.

Trim Kit for Standard Whirlpool

Chrome (TRC) **\$300**
Brushed Nickel (TRBN) **\$800**

Trim Kit for Ultra Whirlpool

Chrome (TRCU) **\$410**
Brushed Nickel (TRBNU) **\$1,060**

NOTE: Depending on the color and package ordered, not all trim items are available to match.

IMPORTANT: Most trim options are permanent and cannot be changed after installation.

Low Water Sensor

- Automatic water level control prevents the whirlpool pump from operating when there is insufficient water in the tub.
- A sensor is mounted on the tub approximately 1" above the highest jet. If the tub is not filled up to this level, the pump will not operate.
- Likewise, if the water drops below this level, the pump will automatically shut off.

Low Water Sensor (LWS) **\$420**
