

Simply Insightful

Built on the tried-and-true TempControl valve body, the all-new TempControl Digital gives you control of your building's tempered water with pinpoint accuracy and conveys real-time temperature readings to the Evolution app.

SIMPLE TO SPECIFY

A code-compliant digital valve that's easy to size and built for long-term reliability.

EASY TO INSTALL

Retrofit with ease—there's a digital cartridge available for very TempControl valve body size.

EFFORTLESS TO CONTROL

Greater visibility, safety, and energy savings with app-based control and monitoring.

QUICK TO RESPOND

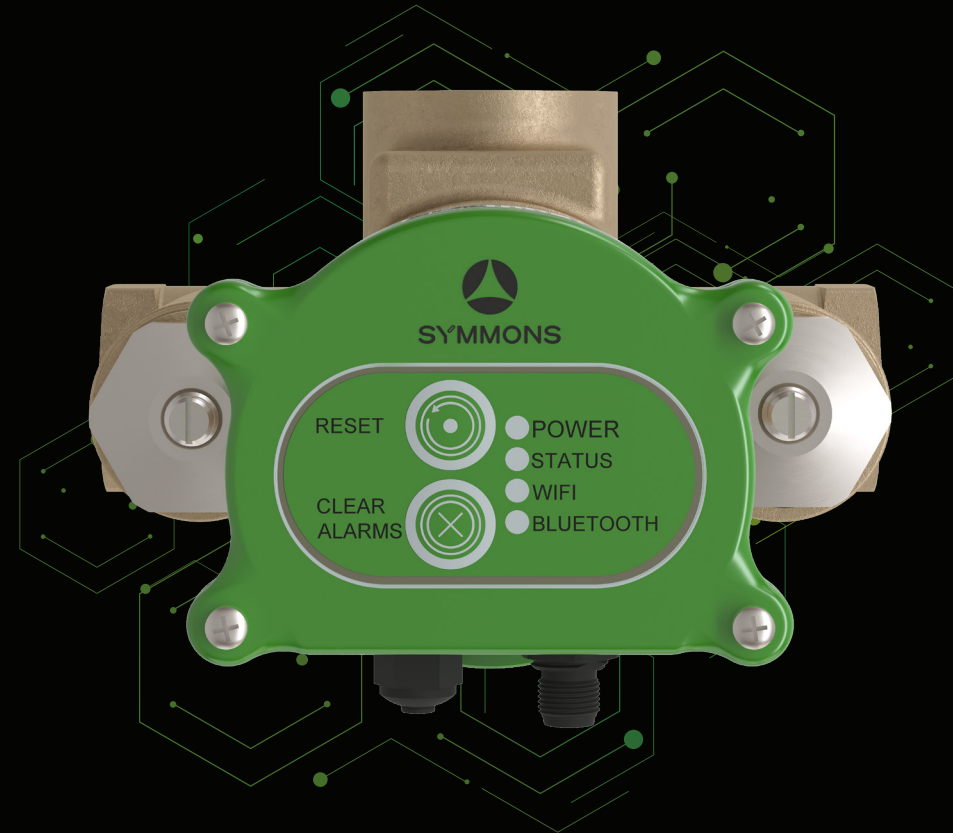

Shorten your team's response time to critical issues through real-time notifications directly to staff.

SYMMONS®

TEMPCONTROL® DIGITAL

The TempControl Digital Master Mixing Valve delivers safe, consistent water temperatures with precise digital monitoring and effortless control—all built on a trusted valve body that simplifies installation and retrofit projects.

The Right TempControl for You

Whether you're looking to simplify installation and maintenance, access full control of your water from anywhere, or get deeper insights into your system, there's a TempControl Digital Solution for you.

TempControl Digital

On-site connectivity enables local control with real-time monitoring and data visibility.

- ✓ **On-site control**
- Remote access
- Cellular gateway
- 24/7 alerts
- 3-year subscription
- Two non-invasive temperature sensors
- Enhanced visibility into water system

TempControl Digital Connect

Remote connectivity enables remote access, real-time monitoring, control from anywhere, and 24/7 alerts.

- ✓ **On-site control**
- ✓ **Remote access**
- ✓ **Cellular gateway**
- ✓ **24/7 alerts**
- ✓ **3-year subscription**
- Two non-invasive temperature sensors
- Enhanced visibility into water system

MOST POPULAR

TempControl Digital Connect+

Remote connectivity with two non-invasive temperature sensors provide expanded system visibility and 24/7 alerts.

- ✓ **On-site control**
- ✓ **Remote access**
- ✓ **Cellular gateway**
- ✓ **24/7 alerts**
- ✓ **3-year subscription**
- ✓ **Two non-invasive temperature sensors**
- ✓ **Enhanced visibility into water system**

MOST ADVANCED

TempControl Digital options and features shown above apply to both full-valve and cartridge-only packages.

Temperature Control is Evolving

TempControl Digital connects to the Symmons Evolution® platform for management of water system temperatures. Whether you're on site with the Digital version or remote with Digital Connect or Connect+, you're in control.

Precise Temps

Achieve and maintain consistent temperatures with rapid reaction to fluctuating system demands.

Remote Access

Digital Connect and Connect+ versions offer on-site and remote access to temperature monitoring and control.

24/7 Alerts

Shorten your team's response time to critical issues through real-time notifications directly to staff.

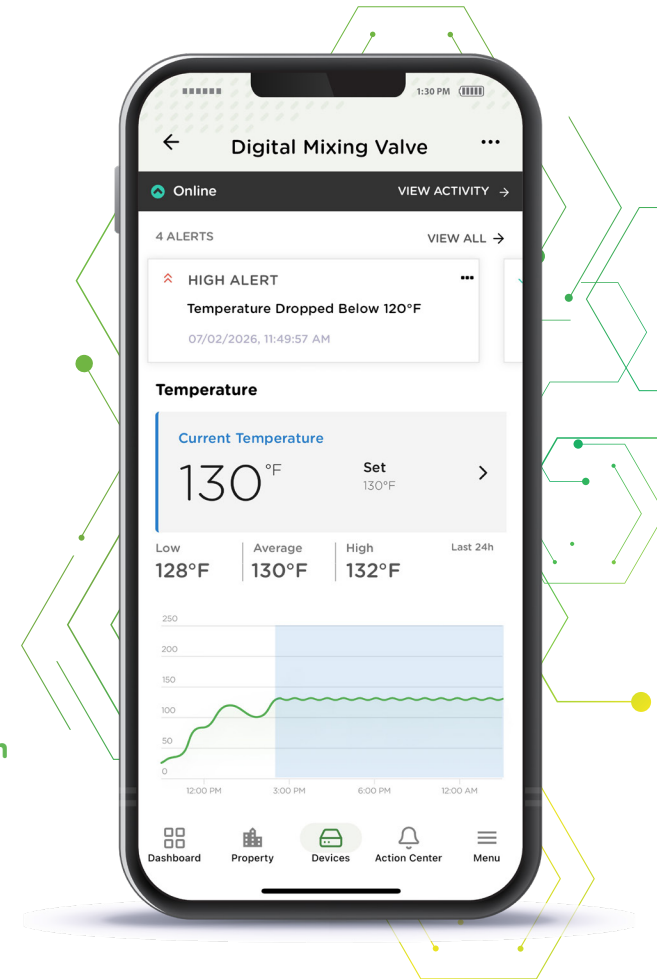

Proactive Protection

Self-cleaning and disinfection modes for preventive maintenance and protection from water-borne bacteria.

Retrofit-Ready

The only master mixing valve with the ability to upgrade from thermostatic to digital with the same valve body.
