Skin Protectant with Glycerin

ITEM 1280

3 oz.

24 / cs

Dürma+ DynaGel Skin Protectant with Glycerin is designed to hydrate and soothe minor wounds. Formulated with aloe and Vitamin E, this gel helps to soften and protect wound beds and their surrounding areas, encouraging autolytic debridement and reducing irritation.

- Formulated to hydrate and protect wounds and surrounding skin
- Helps maintain a moist wound environment to support comfort and healing
- Contains aloe and vitamin E to help soothe irritation and relieve dryness
- Aids in softening tissue to encourage autolytic debridement
- Ideal for minor wounds, abrasions, and superficial injuries
