

SA63-7 SMALL APERTURE® SERIES

6.5" 3-WAY FULL-RANGE - 3" CEILING OPENING

- (1) 6.5" (165 mm) High Excursion Aluminum Woofer**
- (1) 2" (50 mm) Aluminum Midrange**
- (1) 0.75" (19 mm) Aluminum Dome Tweeter**

Unlike anything you have seen or heard, James Loudspeaker has raised industry standards once again. The James Small Aperture® in-ceiling/in-wall speakers have a very small 3" round or 3"x 3" square sound aperture yet pack in a full 3-way system for deep bass and wide frequency response. A seamless edge detail keeps them looking smart and modern yet discrete. The system includes a mini powerpipe 6.5" subwoofer, 2" midrange, and 3/4" dome tweeter for wide 38Hz to 22kHz response. Having a real subwoofer also allows the system to play at loud levels. Deep bass and high SPL from such a small visible opening causes a second take!

All aircraft grade aluminum construction and a modular design provide long life and easy service, while installer configurable protection offers the utmost reliability. The SA63-7 has a small foot print with a 7" depth and is best suited for in-ceiling mounting. The SA series is designed to also accept industry standard lighting trim kits to allow integration with similar styled lighting products.

Order woofer assembly, mid-range module and grille kits separately.

- Size** 13.625 h x 9.875 w x 6.375 d (in)
346 h x 251 w x 162 d (mm)
- Freq Response** 38Hz-22kHz±3dB
- Impedance** 4 ohms
- Sensitivity** 88dB 2.83V /1m
- Power req.** 25-125 W (Protection Limited)
- Woofer** (1) 6.5" (165 mm) Aluminum
- Mid** (1) 2" (50 mm) Aluminum
- Tweeter** (1) 0.75" (19 mm) Aluminum
