

# 17020R

## 6" Remodel Slope Ceiling Housing

### Product Description

Suitable for remodel construction in residential and commercial applications. Designed for slope ceiling installation for ceilings from 2/12 to 6/12 pitch. The socket pivots to allow the lamp to be aimed straight down regardless of ceiling pitch. NON-IC. Insulation must be kept a minimum of 3" from housing.

#### Housing

Aluminum construction provides greater heat dissipation. Washington State Energy Code approved to meet restricted airflow requirements. Airtight housing limits the exchange of air between ceiling plenum and heated/cooled areas. Integral thermal protector guards against improper lamping and misuse of insulation materials. Adjustable socket bracket assures proper and consistent lamp positioning. 8<sup>3/4</sup>" height allows use in 2x8 joist construction.

#### Junction Box

Listed for through branch circuit wiring and includes several 3/4" knockouts. Supplied with three push-in wire connectors.
