

CRC® Power Lube Ind High Performance Lubricant w/PTFE

Product Description

Best for high-load applications needing extra pressure resistance. Your job is hard, and sometimes the equipment makes it harder. Some machines just won't respect a weak formula. When gears grind or pressure spikes, CRC® Power Lube® gives you what you need, and more. Enhanced with extreme pressure additives, it delivers double the strength of typical lubricants (4,500 lbs. Falex rating) and holds strong up to 300°F. Why? Because high-load applications don't give second chances.

Advantages vs multi-purpose lubricants: This product is built for extreme load-carrying situations. The wet film, non-drying lubricant increases the life and operating efficiency of parts and equipment by leveraging PTFE for long-lasting lubrication and protection against friction, wear and corrosion.

Applications

Bearings, gears, linkages, motors, chains, cables, rollers, guide bars, pulleys, cams, valves, ball joints, hinges, slides, cutting tools, taps, dies, pistons, handling equipment, conveyors, hoists, lifts, doors and fans.

Identification

Item Number / Case Number	1003304 / 1003303
Legacy Number	03045
Unit Package Description	16 Ounce Aerosol
Net Fill	11 wt oz
UPC Code	078254030456
Unit Dimensions	7.75H x 2.63W x 2.63D in
Units Per Case	12

Properties

Appearance	Light Amber Liquid w/white precipitate
Base Type	Petroleum Solvent
Boiling Point (F/C)	134.2°F / 56.8°C
Dielectric Strength	Not Determined
DOT Proper Shipping Name	Aerosols, Flammable, Limited Quantity
Evaporation Rate	Fast
Flash Point (F/C)	<20°F / <-7°C
Flammability LEL % / UEL %	0.6 / 16
Flammability Class - CPSC	Extremely Flammable
NSF Category Code	H2
Odor	Wintergreen
Plastic Safe	No
Propellant	Carbon Dioxide
Restricted From Sale In:	
Solubility	No data available
Spec Gravity Concentrate	N/A
Vapor Density	> 1 (air = 1)
VOC % (Consumer Product def)	0
VOC Category	Multi-Purpose Lubricant
Working Temp (F/C)	Max 300°F / Max 148.9°C

Sizes

11 wt oz	03045
----------	-------
