for lead times and shipping fees.

CARE AND MAINTENANCE

PORCELAIN CARE & MAINTENANCE

INITIAL CLEANING

Proper cleaning after installation is essential for future maintenance. Remove excess grout using clean water and a sponge. If grout leaves behind a white haze, it can be wiped off using a clean cloth after grout has cured. Stubborn residue may require the use of a grout haze remover solution or neutral detergent. Thoroughly rinse the area with clean water and dry with a clean towel or wet vacuum.

ROUTINE MAINTENANCE

Immediately wipe up any spills and clean the area using a damp cloth or sponge. Remove loose soil using a broom or vacuum. To remove stubborn surface debris, use a scraper or putty knife. Wipe the area with a PH-neutral and soapless cleaner. Rinse with clear water and wipe dry to prevent residue. Do not use cleaning wax, oil-based cleaners, ammonia, sealants, or products containing acid or bleach for routine maintenance. Avoid using abrasive cleaning products such as steel wool.

VIRGINIATILE

Design that shapes living.

Good design is born of creativity and imagination, but as we build and renovate, update and expand, the materials we select will define the quality of the spaces we live in beyond what meets the eye.
