## Performance Characteristics

Breaking Strength	≥ 250lbf
Chemical Resistance	Resistant
DCOF	N/A
Deep Scratch Resistance - Unglazed	N/A
Frost Resistance	Resistant
Mohs Hardness - EN101	N/A
Water Absorption	≤ 6.0%
Certifications	N/A
Country of Origin	N/A
Shade Variation Code	V3

## CARE & MAINTENANCE

Matte tile products should be cleaned routinely with an all-purpose, low VOC, household or commercial cleaner. The product chosen should also be grout joint cleaning compatible. The type of product may vary depending on the tile application and use. A multipurpose spray cleaner, which removes soap scum, hard water deposits and mildew designed for everyday use can be used on wall tile areas in residential baths and showers. A cotton mop, cloth, sponge, or non-metallic brush should be used to apply and agitate cleaner. Rinse the area with clean water and dry thoroughly. Routine cleaners should never contain harsh chemicals as these can damage tile. Acids can damage grout and the glazed surface of the tile. Ammonia can discolor grout.

Regular dust mopping, sweeping, or vacuuming is recommended prior to cleaning with liquid products.

Unglazed tile should be cleaned routinely with concentrated tile cleaners with a neutral pH for safe regular use. These cleaners are better suited for removing grease, oils, and normal spills from unglazed products. Again, these products will vary depending on the application, amount of traffic and the use. The product chosen should also be compatible with the grout.

## A MIDWEST STAPLE.

Our 19 locations represent an expansive footprint, with an in-house transportation network directly servicing professionals in 16 states across the Midwest.

While our commercial programs and manufacturer partnerships extend to projects across North America.
